Stamboek Oostelijke Griekse Landschildpad- Testudo hermanni boettgeri

1. Introductie

De Oostelijke Griekse landschildpad (Testudo hermanni boettgeri) is samen met de Vierteenlandschildpad (Testudo horsfieldi) de meest gehouden landschildpad in de terrariumliefhebberij, bij kwekers en bij dierentuinen. Het is tevens de soort waar al vele jaren met succes massaal mee wordt gekweekt. De soort is relatief gemakkelijk te huisvesten zowel in het terrarium als 's zomers in een omsloten tuingedeelte. De soort is dan ook zeer geschikt voor beginnende schildpaddenhouwers.

In het wild wordt de soort vooral bedreigd door verlies en versnippering van de leefgebieden. De strikte Europese wetgeving heeft de handel in uit het wild afkomstige individuen tot een minimum beperkt. Wel wordt er in Europa veel gehandeld in nakweekdieren, niet altijd met een duidelijke herkomst en goed gecontroleerde documenten.

In de liefhebberij zijn alleen al in Nederland enkele duizenden Griekse Landschildpadden aanwezig. Veel dieren zijn nog afkomstig van importen van voor de Cites regelgeving. Met regelmaat worden dieren aangeboden aan het stamboek en aan ervaren stamboekdeelnemers, afgestaan door mensen op leeftijd die na zo'n 40 jaren een goed onderkomen zoeken voor hun Stoffel. Voor lang niet alle dieren is destijds een ontheffing op het bezitsverbod aangevraagd. Van vrijwel geen van alle wildvang dieren zijn vangstlocaties bekend. Het is bijzonder moeilijk om aan de hand van uiterlijke kenmerken iets te zeggen over het land van herkomst. Veel schildpaddenliefhebbers houden vrij grote groepen Grieken uit allerlei regio's tezamen. De hieruit gekweekte jongen, inmiddels tot in de 4^e generatie mogen worden beschouwd als 'Tuinhybrides' en zijn uitsluitend en uitmuntend geschikt voor de liefhebberij. Eventuele waarde van kweek voor soortbeschermings-projecten is nihil.

2. Het stamboek:

In het stamboek zijn op dit moment 681 dieren ingeschreven, verdeeld over een negentigtal locaties. Van veel locaties is na aanmelding weinig of niets meer vernomen ook na meerdere verzoeken tot controle van de gestuurde overzichten. Na een periode van beperkte activiteit met betrekking tot registratie binnen het stamboek is in 2003 naar alle deelnemers weer een overzicht gestuurd met een korte enquête. Hierin is ondermeer gevraagd of deelnemers een actievere rol willen spelen in het stamboek, of men oudere wildvang dieren met eventuele oorspronkelijke herkomsten heeft en of men ruimte beschikbaar heeft voor opvangdieren. Een behoorlijk aantal deelnemers heeft te kennen gegeven actief aan dit stamboek te willen deelnemen. Een precieze invulling hiervoor wordt op dit moment besproken. Gedacht wordt aan één of meerdere bijeenkomsten in samenwerking met de andere Testudo-stamboeken.

Het nut van dit stamboek als register is om een drietal redenen in twijfel te trekken.

- De soort als zodanig wordt in het wild niet acuut bedreigd en de Europese beschermingsmaatregelen functioneren redelijk goed.
- Het aantal onverwante dieren waarmee gekweekt wordt is dermate groot dat intelletproblematiek ruimschoots te vermijden valt.
- De nagekweekte dieren kunnen worden beschouwd als 'Tuinhybrides' en hebben geen waarde voor eventuele soortbeschermings-activiteiten.

Toch kan het stamboek binnen de ESF een functie vervullen. De Griekse Landschildpad is als prototype van de huisschildpad een soort ambassadeur geworden voor de interesse in schildpadden in het algemeen. Dit komt niet alleen de schildpaddenhouderij ten goede maar ook de vele schildpadden beschermingsprojecten. Voorlichting aan beginnende liefhebbers over het houden van de soort, de huisvesting, de voeding etc. is dan ook een belangrijke taak. Ook de opvang en herplaatsing van bejaarde, afgedankte en in beslaggenomen dieren is een functie waar met name de laatste tijd binnen het stamboek veel energie in is gestoken.

Het is mijn bedoeling om het stamboek als registratiemedium, in overleg met het ESF bestuur, sterk in te krimpen. Hierbij wil ik de nadruk leggen op registratie van oorspronkelijke wildvangdieren en het stimuleren van gericht kweken met dieren uit dezelfde regio's, als die bekend zijn. Daarnaast zou het stamboek zich bezig kunnen gaan houden met inventarisatie van wetenschappelijk onderzoek aan de soort en deze gegevens aan de stamboek deelnemers kunnen verstrekken. Ook zou een bijdrage vanuit het stamboek aan soortbeschermings-projecten in de Balkan tot de mogelijkheden behoren.

3.Opvang en Citesproblematiek:

De laatste tijd worden er steeds meer Griekse Landschildpadden in opvang aan het Stamboek aangeboden. Het afgelopen jaar zijn er 6 dieren door particulieren, 3 dieren door Blijdorp, 5 dieren door Laser en 18 dieren door Iguana aan het Stamboek aangeboden. Een groot deel daarvan heeft binnen het stamboek onderdak gekregen, voor een aantal wordt nog onderdak gezocht. De problematiek van vergunningverstrekking is door de recente beleidswijzigingen van het Citesbureau omvangrijk. Voor oorspronkelijke wildvangdieren en ook voor de eerste generatie nakweek zgn.'Captive Born' is naast een overdrachtsontheffing, een EG certificaat, een bezitsontheffing vereist. In het verleden mocht het EG certificaat ook als bezitsontheffing worden gezien. Hierdoor kan opvang uitsluitend plaats vinden bij die stamboekdeelnemers die uit het verleden al over een bezitsontheffing beschikken. Hierdoor is de opvangcapaciteit binnen het stamboek zeer beperkt. Inmiddels hebben besprekingen van het ESF met het Citesbureau waaraan ook de stamboekhouder heeft deelgenomen geresulteerd in goede afspraken waarbij het ESF stamboekdeelnemers mag aandragen voor het verkrijgen van bezitsontheffingen. De administratie hiervan en de controle op de betreffende deelnemers zal een extra taak worden voor de stamboekhouder in de toekomst.

4.Conclusie:

Het stamboek van de Oostelijke Griekse Landschildpad is qua functie binnen het ESF een buitenbeentje. Toch lijkt er voldoende reden om het stamboek nieuwe impulsen te geven waarbij meer dan nu ook een rol is weggelegd voor een kleinere maar actievere groep deelnemers. Bij deze roep ik dan ook alle stamboekdeelnemers op die nog niet hebben gereageerd op het rondschrift van vorig jaar zich alsnog te melden.
